

CANBERRA HIGH SCHOOL - Technology Learning overview for Term 1

Subject: International Cuisine

During Term 1, students will learn to apply knowledge to design, produce and evaluate a number of food items and recipes using a variety of cooking techniques. Students will investigate various cultures around the world and their related food products. Their major project this term is presenting a design portfolio of an Asian banquet meal. In a practical setting students identify and display appropriate techniques and safety procedures in a kitchen environment and evaluate production processes for accuracy, quality, safety and efficiency. Work and communication will occur in class and within your child's Google Classroom page.
