## Australian Mathematics Trust Challenge

Dear Parent/Caregiver,

Each year, students at Canberra High School are given the opportunity of participating in different Mathematics programs offered by the Australian Mathematics Trust.

The **Maths Challenge** comprises six problems for students in secondary levels to be mostly completed in the students' own time. Students may also work on these problems in class when classwork is completed. Problems can be discussed in groups of **two** registered students before individual submission of solutions. There are separate problem sets for Junior (Year 7-8) and Intermediate (Year 9-10) students. The Maths Challenge is compulsory for all students doing Mathematics as their Inspire subject.

The Challenge will take place over a **four- week period, 31st March – 28th April 2023**. The entry fee for this competition is **\$25.50**. Please complete the form on the back along with payment by **Friday 3<sup>rd</sup> of March 2023**. If financial difficulties are preventing your child from entering please contact the school for alternate arrangements.

Separate notes will be provided later in the year for the CAT (Computational and Algorithmic Thinking) competition and the Australian Mathematics Competition, both of which are short online competitions undertaken in school as well as the longer Mathematics Enrichment program.

If you have any queries, please contact your child's Mathematics teacher or the Mathematics Faculty (6142 0800). Further information is available on the Australian Mathematics Trust website at <https://www.amt.edu.au/challenge>

Regards

Toby Nicholls
